Detroit Metro Airport Authority Awards Contract for Wind Energy Inspection, Monitoring and Reporting

Contractors Building Supply (CBS) awarded 3 year contract for Wind Energy Inspection, Monitoring and Reporting at Detroit Metro Airport

Copemish, MI August 11, 2011:

Contractors Building Supply, Copemish, Michigan, has been awarded a competitive bid to inspect, monitor and report results of the Wind Energy Systems in place at Detroit Metro Airport Authority.

In 2010, Detroit Metro Airport Authority installed 6 Windspire Wind Generators. The turbines are prototype low wind test models for Windspire Energy. As part of the project awareness and education, Contractors Building Supply will monitor wind speed production and solar iridescence for 3 years and make additional recommendations to the airport authority based on the results of the monitoring.

Contact Allan O'Shea for more information.
